

What Does It Weigh?

1. Step on a scale and record your weight.
2. Choose a household item to weigh (a backpack, book, gallon of milk, etc).
3. Carefully hold on to this item and step on the scale again. Record your new weight.
4. Subtract the two numbers.
5. What did the item weigh?

Jolene weighed her pet duck, her new baby sister, and a stack of firewood! What might you weigh?
